PROJECT NAME: **Trade4all**
TEAM: **App-solutely Code**
MEMBERS:
Cojocariu Ilinca-Ioana

IDEA IN SHORT: Trade4all is an app where kids or teens can donate, share or swap items in order to meet up and create new relations.

Hardcore Entrepreneur hackathon 6.0

1.PRODUCT - PROBLEM WE SOLVE

Many children struggle making friends in school, so this is where we come in hand. On Trade4all, kids or teens that need help can chat, swap, share or donate items.
My goal isn't to re-use items – it's for people to meet up, gather more knowledge together and create new relations in a safe and kid-friendly environment.
On Trade4all age doesn't matter – whoever and whatever you gain does.

2. OUR TARGET GROUP & SDGs

Target Group: Children ages 6 – 14 and their families in Iasi.

- Reduced Inequalities (SDG 10)
- No Poverty (SDG 1)
- Quality Education (SDG 4)

3. SMART OBJECTIVES

- Onboard at least 2 schools in Iasi and reach to multiple users.
- Facilitate the exchange of items in the first year.
- Expand to schools outside the main city of Iasi.
- Run a storytelling campaign showcasing the apps impact in the life of people using it.

4. PRICE

- Free for all users.
- Sustained through school partnerships, local bookshops sponsorships.

5. PROMOTION

- Schools – present the app to parents and teachers in school meetings
- Extracurriculars – sports clubs, art classes, summer camps
- Neighborhood Networking – encourage users to bring friends and relatives on t
